Draper Aden Associates, a TRC Company has provided water and wastewater rate analysis to local government clients across Virginia for several decades. For questions about this report or rate consultation services, please contact Anne Hunter Stephens at 804.767.0175 | astephens@trccompanies.com or Adrianna Dimperio at 757.633.3979 | adimperio@trccompanies.com.

About Our Survey

For 34 years, Draper Aden Associates, a TRC company has provided the Annual Virginia Water and Wastewater Rate Report as a service to our clients and to water and sewer providers across the Commonwealth. Earlier this year, Draper Aden Associates conducted a survey to request water and wastewater rate information from 259 water and sewer providers; data from fifty-three percent (53%), or 136 utilities is included in this report. The information summarized herein includes:

- approximate number of residential and non-residential connections
- billing frequency (monthly, bi-monthly, or quarterly)
- the charge for residential customers using 3,000, 4,000, and 5,000 gallons of water per month
- the charge for non-residential customers using 1,000,000 gallons per month
- the current residential connection fee and capital recovery charge
- the year that rates and fees were last changed.

We are pleased to share these results and express our gratitude to all who participated in this effort.

Control Group Data

For over 20 years, Draper Aden's survey has tracked a select group comprised of 20 water and wastewater providers who represent a cross section of utilities across the Commonwealth. We have consistently tracked the monthly residential charges of these 20 utilities to provide an indication of trends in water and wastewater rates in Virginia – and to provide an indication of average increases over time.

The average water rate increased by 2.1% in 2022 and the average sewer rate increased by 2.5%. Since 2012, water rates have increased by approximately 3.4% per year and wastewater rates have increased by approximately 3.8% per year.

AVERAGE WATER AND SEWER BILLS (BASED ON 5,000 GALLONS OF USAGE)

Water and Wastewater Rates

Utilities were asked to calculate the charges for residential customers using 3,000, 4,000 and 5,000 gallons of water per month. Utilities that bill on a bi-monthly or quarterly basis provided rates based on equivalent usage and the rates were normalized to monthly rates. Respondents were asked to use the rates in effect on July 1, 2022.

Residential Connections	# of Replies	Smallest System # of Connections	Largest System # of Connections	Average # of Connections	Median # of Connections
Water	132	29	366,473	14,570	2,712
Wastewater	124	40	121,818	10,392	2,217

Monthly Residential Rates

■ Average Rate ■ Median Rate

Utilities were also asked to provide the rate for a non-residential customer that uses 1,000,000 gallons per month. If the size of the meter influences the charges, the utility was to assume a 4-inch meter.

Non-residential Connections	# of Replies	Smallest System # of Connections	Largest System # of Connections	Average # of Connections	Median # of Connections
Water	131	6	12,767	923	252
Wastewater	121	10	8,372	750	250

Monthly Non-residential Rates (per 1 million gallons)

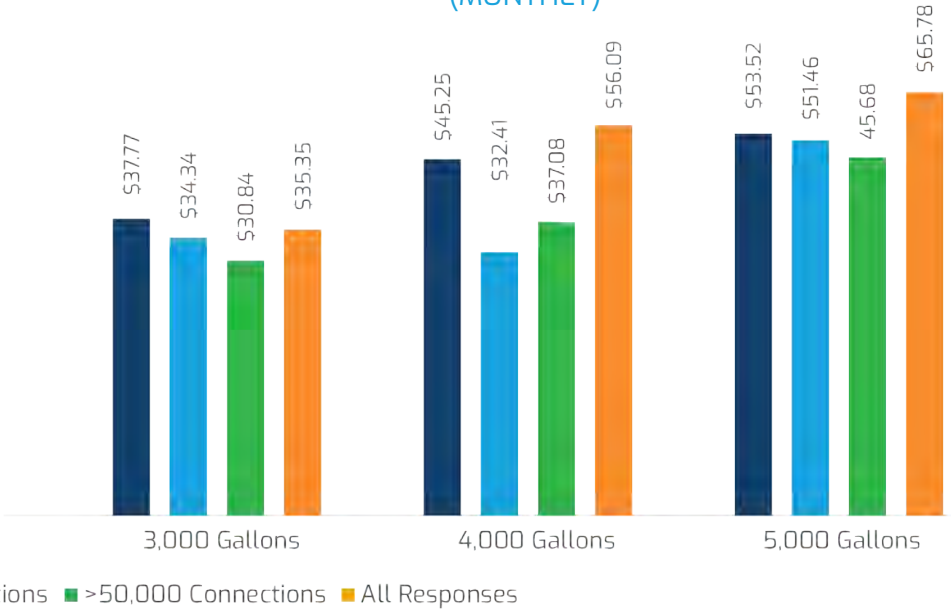

Water Rate Summary by System Size

AVERAGE RESIDENTIAL WATER RATES BY SYSTEM SIZE (MONTHLY)

Wastewater Rate Summary by System Size

AVERAGE RESIDENTIAL WASTEWATER RATES BY SYSTEM SIZE (MONTHLY)

Connection Fees and Capital Recovery Charges

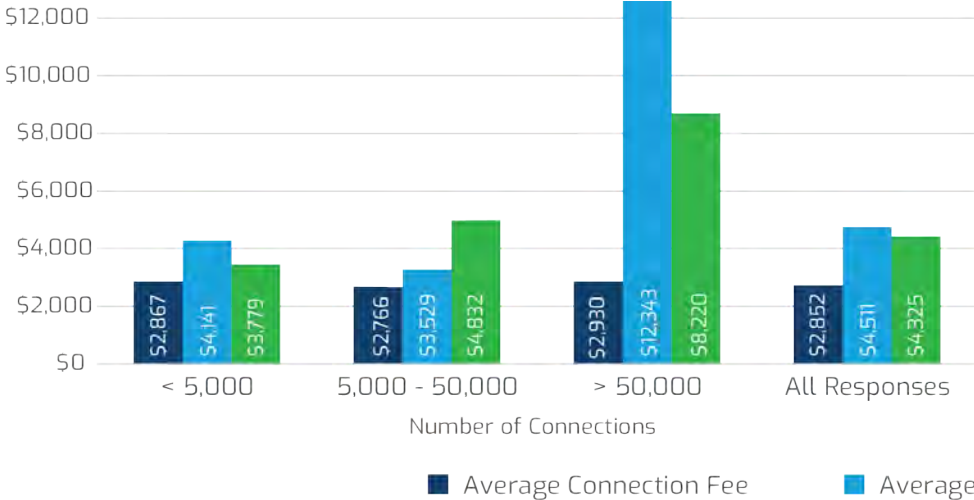

Residential connection fees and capital recovery charges are shown below. Connection fees are charges for tapping into the water main and running a line to the water meter or for tapping into the sewer line and running a lateral to the property line. Capital recovery charges are capital charges for buying into the existing system or charges that recognize the Cost of adding capacity to the system. Providers were asked to furnish the charges for a residential connection using a 5/8- or 3/4-inch meter.

	Connection Fees		Capital Recovery Charges		Combined Charges	
	Water	Wastewater	Water	Wastewater	Water	Wastewater
Average	\$2,852	\$3,883	\$4,511	\$5,046	\$4,325	\$5,306
Median	\$1,500	\$2,000	\$3,500	\$4,500	\$3,697	\$4,500
High	\$25,754	\$21,600	\$23,910	\$16,200	\$25,754	\$21,600
Low	\$82	\$50	\$85	\$486	\$100	\$100

*Fees and charges in this table are for residential connections using a 5/8- or 3/4-inch meter

¹"**Inside**" refers to inside of municipal boundary. "**Outside**" rates are listed where the utility has implemented higher rates to users outside of the municipal boundary.

²**Water Source:** **S** = surface water, **G** = groundwater, and **C** = combination.

³**Connection and Capital Recovery Charge (CRC) Fees:** "**Cost**" = customer pays the Cost of making the connection; "**Cost +**" = the customer pays the Cost to make the connection, plus additional charges, "**Fixture**" or **DFU** means the customer is charged that fee per the number of drainage fixture units in the structure. **Min** = Minimum charge is dollar amount cited.

⁴Participants provided wastewater treatment services by the Hampton Roads Sanitation District (HRSD): Gloucester County, Isle of Wight County, James City Service Authority, Town of Smithfield, and the City of Virginia Beach included the HRSD wastewater charges in their responses. As a result, the data listed in the wastewater section of this report includes the HRSD wastewater treatment charges as follows: 3,000 gallons per month (or 401 cubic feet) - \$27.94; 4,000 gallons per month (or 535 cubic feet) - \$37.29; 5,000 gallons per month (or 668 cubic feet) - \$46.56 and 1,000,000 gallons per month (or 133,681 cubic feet) - \$9317.57.
